✉ ah.hassan7415@gmail.com —  github.com/AhmadHassanz —  linkedin.com/in/ahmad-hassan-2a5a50321/

SKILLS

Languages: C/C++, Java, Python

Technologies & Tools: VS Code, IntelliJ, Git

EDUCATION

COMSATS University, Lahore Campus

B.S in Computer Science

Feb 2025 - Feb 2029

CGPA: 2.86/4

Relevant Coursework: Programming Fundamentals, Object Oriented Programming, Discrete Mathematics

PROJECTS & PRACTICALS

- **Student Management System (1st Semester):** Developed a console-based application in C++ using functions, arrays, file handling, and exception handling. Features include adding, deleting, and viewing student records.
- **Cafe POS System (In Progress):** Building a Java-based Point-of-Sale system with GUI, object-oriented design, and file handling. Implements order management, billing, and inventory tracking.
- **Simple Calculator System:** Console-based calculator in C++ supporting basic arithmetic operations.
- **Volt Vault Bank (Physics/Arduino Project):** Designed a small security system with laser-based alarm activation. When unauthorized access is detected, the system triggers an alert. This project was one of three selected for the university exhibition.

CERTIFICATIONS

- **Foundations of Cybersecurity** – Coursera

INTERESTS

- **Competitive Programming** – Practicing algorithms and problem-solving challenges.
- **Cybersecurity** – Exploring system security, finding vulnerabilities, and fixing them.
- **Problem Solving** – Enjoy tackling logical and programming challenges.
- **Mathematics** – Enjoy working on mathematical problems and concepts.
